BN Series

BN-401F

General NC Single Bender

Upgraded with AC servo drive for unmatched bending accuracy.

※Please contact us to inquire about large models.

Our easy-to-use tube bender is designed with affordability and precision in mind. With fully digital control of all process data, this machine is the ideal choice for creating prototypes and small production runs.

Specifications Model	BN-401F	BN-601F	BN-901F	BN-1201F
MAX O.D. Bending (mm)	Φ42.7 x t 3.5	Φ60.5 x t 3.5	Φ89.1 x t 4.2	Φ114.3 x t 5.5
MAX Radius Bending (mm)	R220	R300	R500	R600
Machine Weight (kg)	1000	2000	3200	5000
Mandrel Effective Length (mm)	1300	2000	2800	4500
